RE: Stepping Down as President

It has been a great journey over the past years to serve as your President. I was President of Brevard Indian River Youth Association, Florida Space Coast Bowling Association and presently Space Coast Bowling Association. I could only hope that those who follow me will see my leadership made a difference. There comes a time when one must realize there is more work to be done and the need for the organization to go forward with new ideas and new energy. That time has come, and it is time for me to step down and help support a new management team.

I am stepping down my position as President and willing to serve in another capacity. I look forward to our new beginning with members I have confidence will do their best to keep this great organization moving forward.

Good luck going forward.

Respectfully,

Angelo P Cianfrocco
